CANADIAN MUSIC CENTRE
CENTRE DE MUSIQUE CANADIENNE

Centrevisits is an education workshop presented by the Canadian Music Centre (CMC). Students and teachers participate in guided research, discussion, and creative programming that focus on art-making and the context of music composition in 20th and 21st century Canada.

A Centrevisits workshop allows students to engage with professionals in the music industry such as composers, musicians, audio engineers, administrators and others.

Centrevisits will provide resources for you and your students to study and share contemporary Canadian composition. In addition, the program can be tailored to suit your curriculum needs, including music history, careers in the arts, and more.
